

The ASU ITE Student Chapter and ITS Arizona Present

# Autonomous Vehicles: Industry and Technology Overview

## Join us to learn about Autonomous Vehicles Industry and Technology

Karl Theisen founded the Business Engagement Catalyst, a strategic business unit responsible for connecting local and global industry partners to the vast research, workforce development and student engagement resources of the Ira A. Fulton Schools of Engineering. He currently leads the School's industry engagement activities for transportation and automated mobility research and program development. He is also ASU's lead for the Institute of Automated Mobility (IAM) launched by Arizona's governor in the Fall of 2018.

***Pizza and refreshments will be served.***

## Karl Theisen

Associate Director of Corporate Engagement  
Ira A. Fulton Schools of Engineering  
Arizona State University  
ASU Lead, Institute of Automated Mobility
